

REINVENTING POWER

AMERICA'S RENEWABLE ENERGY BOOM

Journey across the country to hear directly from the people making our clean energy future achievable. These individuals are working to rebuild what's broken, rethink what's possible, and revitalize communities. These stories are proof that America does not need to choose between keeping our lights on and protecting our communities. Critically, Reinventing Power underscores the notion that we don't have to sacrifice jobs for a clean environment. Supporting a clean energy future means building a better, more prosperous future for everyone. Over the film's 50 minutes, you'll meet people in eight states whose lives were changed by the renewable energy industry while exploring various aspects of the clean energy industry from innovation to installation.

Movie Night

FRIDAY, JULY 13 7:00 PM

Cosponsored by
