

Water Savers

TIP OF THE MONTH

"I BUG YOUR PARDON"

STUDIES SHOW HEAVY LOSSES
IN INSECT POPULATIONS AND
SPECIES EXTINCTION!

WE NEED THEM FOR:

POLLINATION - ABOUT 75%
OF FLOWERING PLANTS

BIRD FOOD - SOME NESTLINGS
REQUIRE HUNDREDS OF
CATERPILLARS DAILY!

CLEANUP CREW - ESSENTIAL
BUGS GET RID OF DEAD OR
DECAYING BIOMASS

WHAT
CAN YOU DO?

PROVIDE A WATER
SOURCE & HABITAT
RESTRICT PESTICIDE USE
LEAVE SOME LEAVES,
BRUSH & BRANCHES

NATURE WILL THANK YOU!
