

CHESAPEAKE BAY
Landscape Professional

Why CBLP?

CBLP empowers professionals to create sustainable, resilient landscapes across the Chesapeake Bay watershed. Through hands-on learning and collaboration, we're building a community committed to restoring the health of our lands and waters. Level 1 is your gateway to CBLP's credentialing system, grounded in practical experience and region-specific expertise.

What You'll Learn

- Conservation landscaping and Bay watershed restoration ✓
- Sustainable design, native plants, soils, and habitats ✓
- Stormwater BMP design, installation, inspection and maintenance ✓
- Invasive species management and adaptive site care ✓
